CLASS notes

Reading logs will start this week September 30th. If your child has already started that is great it! I will still count it toward their 100 books for this year. Please remember reading logs are due every Monday and both the front and back of the page should be completed.

Thank you to all the parents who have signed up to come in during our workstation time and volunteer. The students enjoy having you here and it gives us a chance to get a lot more accomplished.

MONTHLY OBJECTIVES

English Language arts (ELA): Students begin to learn key literacy strategies including story elements, sequencing, context clues and authors purpose. We will also be introduced to HFW and, are, like, likes, but, us, up, not, on, down, big, little, it, in, go, with, come, to, as, has, want.

Math: Students will compose and decompose numbers to 5. The students will compare the length of given objects. The students will collect and organize data to create graphs and interpret information. The students will count and represent quantities and collections fluently to 20.

Science: Students will begin to gather information about properties of matter by measuring objects. Students will conduct investigations using their sense of sight to explore light, heat and energy. Students will explore ways that objects change and interact with other objects due to movement

Social Studies: Students will be introduced to the reasons for certain national patriotic holidays and the contributions of important people in history. They will also be introduced to ways in which families satisfy their basic human needs for food, clothing, and shelter, and to why people work.
